

# KRESO

Combination of Coal-Tar Derivatives.  
(NON-CARBOLIC.)

## A STANDARDIZED DISINFECTANT, ANTISEPTIC CLEANSER, DEODORIZER AND PURIFIER

Kreso possesses advantages which make it better and safer than any other material for household disinfecting, and it is preferable to carbolic acid, because it does not burn, to chloride of lime, copperas, etc., because

First. It is safe. In the dilution recommended it is practically non-poisonous, and can therefore be used freely, and is safe to have around. It is not caustic or irritating; it does not attack metals, and therefore does not destroy plumbing; it does not permanently stain washable fabrics.

Second. It is effective. Our laboratory tests require that in a 1% solution it must destroy the most resistant disease-germ (the green pus germ) in one minute. It thus disinfects, cleanses and purifies. It destroys foul odors, not by substituting another, but by destroying the cause of the odor.

Third. It is standardized; always the same. You can depend upon it.

Kreso is particularly valuable in preventing an outbreak of contagious diseases, by destroying infection, cleansing, purifying and promoting sanitation. It is the ideal disinfectant for HOSPITALS, RAILWAY STATIONS, PUBLIC BUILDINGS, SCHOOL ROOMS, BATH-ROOMS, WATER-CLOSETS, URINALS, KITCHEN SINKS, STORE ROOMS, OUT- HOUSES, GARBAGE BOXES, CESSPOOLS, STABLES, DOG-KENNELS, CAGES, ETC.

For all general disinfecting purposes mix Kreso with water (warm preferred) in the following proportions:

1 tablespoonful Kreso, 3 pints water.  
1 pint Kreso, 12 gallons water.  
making approximately a 1-to-100 solution.

SAFE AND EASY TO USE.

### SLIGHT WRECK ON I. & G. N.

South Bound Passenger Train Arrived Late This Morning.

As the south bound passenger train of the I. & G. N., due here at 8:50 was nearing Swan this morning, the engine broke down. The local freight out of Mineola was only a few minutes behind the passenger. The engine of the freight train picked up the passenger train and carried it on into Troupe, arriving in Tyler almost an hour late.

The passenger engine which broke down was sent to Palestine for repairs. The wreck was slight and no one was hurt.—Tyler Courier.

### TIOGA HOTEL BURNED.

All the Guests Escaped in the Watering Place Blaze.

Sherman, Texas, Aug. 6.—The Star Hotel at Tioga, Grayson county's watering place, burned this morning at 2:30 o'clock.

It was a wooden structure, containing fourteen rooms, and valued at one thousand dollars.

Very little of the furniture was saved.

All the guests escaped unhurt, but many narrow escapes are reported.

The house was owned by W. C. Brown of Gainesville. There was no insurance.

### Children Are Better.

Mr. Adam Cone, who has kept in telephonic communication with his wife at San Antonio states that their children who were poisoned by doctor's milk at San Antonio, are much better, and getting all right again. He says the children both had close calls, and that those who were with them were greatly alarmed over their condition. Mr. Cone was preparing to go to San Antonio, when he received word that they were out of danger, and his presence was not necessary.

## VOTE WAS LIGHT IN STATE ELECTION

Complete returns from eighty-nine towns in South Texas show the defeat of all the amendments with the exception of that providing for a Confederate Widows' Home, which carried by 1,309. The proposed amendment to increase the salary of legislators was overwhelmingly defeated, the vote being 5,866 against and 1,399 for, or a majority of 4,566 against it. The amendment received a majority in only a few counties.

The amendment increasing the road tax was defeated by 1,682 votes, but fared better than any of the other defeated amendments.

Next in popularity was the amendment to create a department of agriculture. The amendment was defeated by 1,956 votes. The large towns generally supported it, and it is a little remarkable that the measure met defeat at the hands of the smaller farming communities, that were expected to be most largely benefited.

In contrast to this was the defeat of the amendment for the creation of city improvement districts, which was not supported by all of the larger cities, notably Houston and Austin. The vote on the amendment was 2,378 for and 4,753 against.

Next to the legislators' pay amendment the measure most unpopular was the printing, paper and fuel amendment, the vote on which was 1,801 for and 5,293 against, losing by 3,492 votes.

The vote was light everywhere. The larger cities that have voting population of many thousands only polled a few hundred. The light vote indicates that South Texas generally was not vitally interested in the election. In many places no elections were held at all, and in but few places was there indication of much interest.

The vote from the eighty-nine towns mentioned above on the six amendments was as follows:

For Confederate Widows' Home, 4,448; against, 2,179.  
For department of agriculture, 2,447; against, 4,303.  
For change in legislators' salary, 1,309; against, 5,866.  
For city improvement districts, 2,378; against, 4,753.  
For printing, paper and fuel amendment, 1,801; against, 5,293.  
For increase in road tax, 2,962; against, 4,644.—Galveston News.

### The Vote in Palestine.

The vote on the amendments in this city was very light, the majority of the voters not taking the trouble to go to the polls. No election was held in the Fourth Ward. Only the vote in the First and Second Ward has been reported. The Third Ward has not yet reported. The vote indicates that the people want the amendment for the Confederate Widows' Home, but are largely opposed to an increase in officials' salaries. The sentiment of the vote here indicates almost unanimous objection to a state printing office. The vote was favorable to the amendment authorizing subdivision of counties for road tax purposes. Very little interest was taken in the questions submitted, and it will be several days before the vote of the county can be given.

## HOOKER & CO'S WAGON Schedule.

For a better understanding and to facilitate the delivery of goods and assure promptness, we will, effective at once, adopt the following system of deliveries:

At 8:30 a. m., promptly, our first wagons will be loaded and leave store. All orders for this wagon are requested to be in office by 8:15 a. m. Our second wagons will be loaded and leave store at 10 a. m., promptly. All orders requested to be in by 9:45 a. m. These are our last deliveries, except by special request for the morning. All feed stuff delivered in afternoon unless by special request. Our last wagons will be checked out for the day at 6:15 p. m. All orders should reach us by 6 p. m.

In this connection we beg to say that we adopt this system for the benefit of our trade, believing they will get better service, and to enable our employees to be relieved of extra and unnecessary hours of labor. Thanking our patrons in advance for their support and consideration, we remain anxious to please.

Your friends truly,

## The Kind of Frames

To be used is very much a matter of taste. It is important, though, that the frames set properly on the nose and at the right distance from the eyes; that the lenses be perfectly centered, and how are you to know when some are guessing; WE NEVER GUESS.
